

SOFTWARE ENGINEERING & CLOUD ARCHITECTURE PARTNER

Engineering **Exceptional** Digital Systems.

We architect, build, and scale mission-critical software products for hyper-growth startups and global enterprises across Fintech, Healthtech, and Cloud SaaS.

Why Enterprise Leaders Partner With Nordible

Combining deep architectural mastery, cognitive science-backed UX, and strict regulatory compliance to build resilient software.

Clean & Resilient Architecture

Microservices, event-driven pipelines, and serverless backends built for extreme fault-tolerance, zero-downtime deployments, and horizontal scalability.

- AWS / Serverless
- Microservices
- Docker / K8s

Science-Backed UX Design

Interfaces crafted with cognitive ergonomics, thumb-zone accessibility, Fitts's law, and behavioral psychology to maximize conversion and user velocity.

- Ergonomic UX
- Behavioral Flows
- High Conversion

Regulatory & Security Compliance

Battle-tested in high-stakes sectors with strict adherence to PCI-DSS (Fintech remittance), HIPAA (Healthtech data governance), and SOC-2 controls.

- PCI-DSS Audit
- HIPAA Security
- TDD / CI/CD

Kabeer Shah

FOUNDER & PRINCIPAL ARCHITECT

15+ years engineering leadership building scalable systems for Unicorns & Fortune 500 enterprises.

15+

YRS EXPERIENCE

~32k

STACKOVERFLOW REP

Executive Leadership & Track Record

Proven experience managing multi-disciplinary engineering departments of 18+ engineers and scaling complex platforms.

Quest Global • Tech Lead / Engineering Manager

Delivered mission-critical medical systems for GE Healthcare (OncoCare) & Baxter/Vantive (RST IoT diagnostics).

Healthtech / IoT

Nium Inc. (Instarem) • Interim Head of Engineering

Fintech Unicorn: Led 18+ engineers, PCI-DSS compliance audits, and high-value API integrations (PhonePe).

Fintech Unicorn

The Parent Inc. (TickledMedia) • Lead Senior SDE (SDE-3)

Architected microservices and micro-frontends overhaul for flagship Parents.VIP marketing platform.

Microservices

SmarTek21 & NerdsPal • AI Architect & Co-Founder

Built SmartbotHub conversational NLP chatbot AI platform and bootstrapped EdTech cloud community.

AI / EdTech

Enterprise Impact & Case Studies

Real-world results delivered across high-scale global platforms.

GENERAL ELECTRIC HEALTHCARE

Oncology Platform

OncoCare Clinical Decision Platform

Architected a specialized decision-support system aggregating complex patient oncological data to empower confident clinical choices worldwide.

• 40% faster clinical data aggregation • 60% reduction in processing latency

Node.js

PostgreSQL

AWS Cloud

HIPAA Standards

VANTIVE (BAXTER HEALTHCARE)

IoT Remote Service

RST – Medical Device Diagnostics

Engineered the cloud backend for Remote Service Tool using AWS IoT and Lambda to diagnose medical hardware remotely without onsite visits.

• 50% reduction in device downtime • 75% boost in remote diagnostic accuracy

AWS IoT

AWS Lambda

TDD / Jest

PostgreSQL

NIUM INC. (INSTAREM)

Fintech Unicorn

Global Cross-Border Remittance

Built and directed cross-functional teams delivering high-volume remittance platforms processing millions in international payments.

• 99.9% uptime at peak volume • 100% PCI-DSS audit compliance

Microservices

PhonePe API

React.js

Redis / Node.js

NORDIBLE ECOSYSTEM

Proprietary Products

Nordible Professional Email & Tools

Launched secure business email infrastructure with custom domain routing and privacy-first automation extensions for professional workflows.

• Enterprise SSL/TLS encryption • 99.9% delivery SLA

Docker

Cloud Infrastructure

TypeScript

Let's Build Something Exceptional Together

Whether you need end-to-end product engineering, architectural guidance for high scale, or a modern cloud overhaul, we are ready to accelerate your roadmap.

Dedicated Pods

Full-stack cross-functional engineering teams embedded with your leadership.

Fractional CTO / Architect

Senior strategic advisory, compliance audits, and architectural blueprints.
